Keep Warm & Carry On

Get a handle on how to embroider on items with lots of seams and to use an embroidery product that lets you turn your embroidery design into a fusible appliqué. Learn these techniques and be the hit of the next potluck as you proudly carry your dish in this VERY easy-to-make and clever embroidered carrier.

This class does not involve you actually MAKING anything, it is purely instructional (watching a video on the technique)

If you would like to make it after taking the class, these are the materials you need.

Brewer Sewing Supplies:
