

SUBMITTING BUILDING PLANS FOR REVIEW AND PERMITS

All site, building, electrical, plumbing, mechanical, fire sprinkler, landscaping and fencing plans, etc., including any additional Engineering or Architect calculations and specifications must first be submitted to Tremonton City Building Department:

102 South Tremont Street
Tremonton, Utah 84337

Commercial / Industrial plans must be professionally drawn and shall include an Engineer or Architect wet stamp (from the State of Utah) prior to final review or issuing any building permits.

Residential plans, although not required to be professionally drawn must be legible, to scale, minimum size 11" x 17", must show all drawing requirements such as floor plans, elevations, dimensions, room uses, beam and lumber sizes, etc.,
