This was presented Ken Richley with the National Park Service. This is state based and they work state wide with communities. They offer planning assistance for trails. Tremonton's trail plans needed to be updated. They have been working with Shawn and Steve. Maps of the Tremonton trails were presented. Zach Covington from Brag has created the maps.

Shawn stated that there are a few projects in Tremonton the have been required to put in 8ft sidewalks for the future trails.

This is a long term project. They help communities to come to a point to apply for grants and have a long term goal for future trails.

Public involvement is needed for this project, so a Public Hearing will be held.

The Planning Commission members expressed excitement about this trails plan and the possibility of trails in the city.
