27 Sloppy Joes Peas Macaroni Salad Juice Brownie	28 Ham Balls Rice Mixed Vegetables Pistachio Salad Applesauce	29 Broccoli Chicken Casserole Green Beans Fruity Carrot Salad Oatmeal Cake		

A research organization was hired to poll a small town to find out how families spent their money. One elderly lady told the young researcher that she spent 30% for shelter, 30% for clothing, 40% for food, and 20% for everything else.

“But, that adds up to 120%.” The young man protested.

“I know,” she replied. “And it seems to get worse every year.”
