Grand Calibur™

Grand Calibur™
SR-GC001
Retail \$129.99

The Grand Calibur™ is the latest in Spellbinders'™ line of innovative cutting machines. It is compatible with all Spellbinders die templates. The Grand Calibur™ accepts 8-1/2"x11" paper without trimming, as well as cuts or embosses up to 8-1/8" wide with the turn of a handle. With an integrated handle design, and weighing only 10 pounds, the Grand Calibur™ is portable and convenient to use anywhere. It has a stability base that keeps the machine in place during use. Die cutting and embossing sandwiches are easy to stack with color coded plates. Using the same two-pass process as the Wizard™, (cut on one pass, emboss on the other) the Grand Calibur™ allows so many more die templates on the larger plates. Perfect for Grand Nestabilities®! Larger shapes offer endless possibilities for scrapbooking, school projects, mini albums and more! It is also compatible with Sizzlets, Cuttlebug, and Quickcuts dies, as well as Cuttlebug Embossing Folders and Fiskars Texture Plates.

Donna fell in love with art and her husband in high school. A lot has changed in the last 20+ years but these two loves remain the same. A mixed media artist at heart, Donna loves to experiment with “cross-crafting”. She sees the beauty that surrounds her in everyday life... from a dusty wood floor to a frilly piece of lace, you will see Donna blending contrasting elements together to create her “Girlie Grunge” look. Donna has partnered with several manufacturers in this release. Donna’s dies from Spellbinders coordinate with her paper lines, the Zutter Bind-it-All & Dreamkuts and her rubber stamps.

Tina Higgins

I was born and raised in the country outside of Portland, Oregon. My childhood was filled with making things by hand; sewing, gardening, raising ducks & geese, cooking and painting. My father was an engineer, a WWII veteran and proudly worked for Howard Hughes on his Spruce Goose and my mother a true renaissance woman and the state champion Sharp Shooter of Texas while in high school, they both gave me the strength to believe that there is nothing that I cannot do. After earning a BA in Fine Arts from ASU, I moved to San Francisco with my then boyfriend - to be future husband. I started Tina Higgins Design in 1992 and have enjoyed creating art that is inspired by my vintage paper collection and the passion that I have to repurpose the old into something new. Away from my studio I enjoy being 'mom' to our two wonderful children, going 'junkin' at flea markets, riding quads with my family in the sand dunes in California and just spending time with my family and friends.

heather tozzi

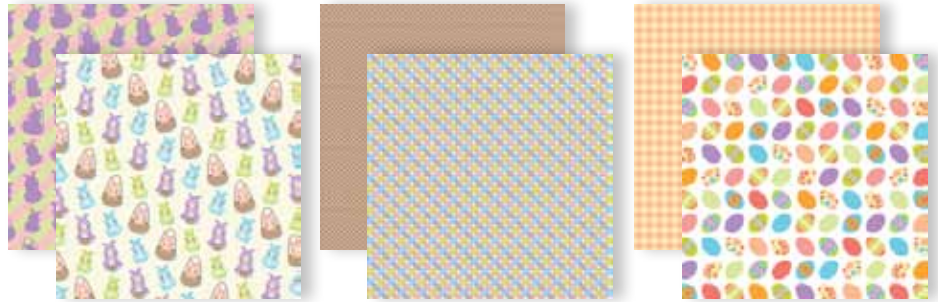

Having been an artist from an early age, Heather has always had an eye for color, composition and detail. It was only natural that she would make a career out of what she loved to do. In 2001, Heather graduated from Brooks College of Long Beach, California with her associate's degree in graphic design. She later went to work as a designer in multi-media advertising in the Southern California area. Heather has played an integral roll in the designing for GCD Studios since the very beginning with paper collections such as Zen Garden and Daydream Ensemble. Her proven design skills and fun, easy-going personality reflects in her work. Amazing details, fun patterns and quirky motifs are her signature design style. A style that has quickly moved her into the spotlight as one of GCD Studios premier artists.

Inspired by happy childhood memories of growing up in England, Helen Jones' designs are sweet and endearing. Her motifs and patterns are reminiscent of simple pleasures she remembers such as baking a cake or making a card for someone special. After moving to Southern California over a decade ago, Helen continued her passion for watercolor by selling one-of-a-kind hand painted cards to local stores in and around Laguna Beach, CA. Following their success, she began work on creating collections of scrapbook papers exclusively for GCD Studios. Using pencil and watercolor, she draws every detail, mixes every color and paints every pattern. Taken from the original artwork, the papers are charming and timeless. Helen has extended her designs into needlecraft by creating one-of-a-kind zip purses which feature her hand painted motifs. She truly believes in life's simple pleasures and enjoys creating those memories with her own family.

(ī-dē'ə-ōl'ə-jē) a concept or thought developed by the mind of what is desirable or ought to be.

SOMETIMES IT'S SO HARD TO FIND WHAT IT IS I'M TRYING TO SAY. PEOPLE MIGHT THINK YOU CAN TURN CREATIVITY ON AND OFF - BUT IT'S NOT LIKE THAT. IT JUST KIND OF COMES OUT. A MASH UP OF ALL THESE THINGS YOU COLLECT IN YOUR MIND. YOU NEVER KNOW WHEN IT'S GONNA HAPPEN BUT WHEN IT DOES IT'S LIKE MAGIC. IT'S JUST THAT SIMPLE - AND IT'S JUST THAT HARD.

Paper Stash - Let's face it, there is tons of paper out in the market, and I definitely own and use much of it already - so why more? Well, because sometimes if you want something done YOUR way, you simply have to do it yourself. The very eclectic collection of the Paper Stacks give me a variety of design styles to choose from. I'm not a fan of scouring paper racks to find papers that go together so I decided to keep them all in their own unique stacks...but with a twist! As a paper crafter, I use paper and lots of it, but I find myself wasting so much of it trying to get the parts of the designs I want. Well, not anymore. Each Paper Stack comes with double sided designs printed on heavyweight cardstock, including 12x12, coordinating 6x6 and 2x2 sizes of the same designs, and matching ATC and border strips. So whether you're making scrapbook layouts, cards, ATC, Fragments or simply collaging - I think you'll use up every last scrap...

Fractured Dolls

AV-TH92906
Retail \$3.99

Fractured Dolls - Love them or not, these vintage inspired dolls are great for collage and assemblage pieces. They do have a bit of history behind them - often referred to as "frozen charlottes" because of their unjointed position, they were manufactured in the early 19th century and inspired by a tragic tale of love. Young Charlotte set out with her lover Charles on a sleigh one bitter cold night to attend a New Years Eve ball. As the couple rode off into the frozen air of this star filled eve, Charlotte would not wrap herself in a blanket to stay warm for fear of crinkling her dress for the party. Upon arriving at the ball, Charles reached for Charlotte's still hand only to discover she had frozen to death. Deeply saddened by the loss of his love Charles wept in gloom, and soon after dies of a broken heart...

Kraft Resist - Talk about something being irresistible! The combination of printed and dimensional imagery layered on to kraft paper makes this paper one of my new favorites. Use it as is for a great watermark look or even better, try coloring with Distress Ink. When you apply dye inks over this kraft paper, the clear dimensional design resists the inks giving you a look unlike any creative possibilities you've seen before. What could be better than printed, dimensional and colorfully inked kraft paper? Nope, I can't think of anything either...
