(ī-dē'ə-ōl'ə-jē) a concept or thought developed by the mind of what is desirable or ought to be.

In a world where each moment of our lives can be created in art of the everyday, it's important that it reflects our own unique personality. I've always been inspired by the timeless nostalgia elements of the past. The design, shape, worn finishes and patinas of these findings add that vintage touch. I've composed this collection to inspire a variety of creative uses. Remember, life isn't about finding yourself, life is about creating yourself. I wanted a way to share my ideas and thoughts of what is desirable or ought to be – welcome to...

Compendium of Curiosities
AV-TH92826
Retail \$24.99

Compendium of Curiosities- Get ready to embark on a journey filled with ideas and inspirations to spark your creative curiosities. This compendium is a compilation of my thoughts and ideas to guide you through your own artistic adventures. I wanted this book to be different though...not your ordinary "how to make" book, but rather "how to create". I believe everyone is truly creative whether they think it or not and this book shares not only ideas on all things idea-ology, but step by step techniques on using some of my favorite Ranger® products. Now what can be better than that?

Configurations - If you're like me, you probably have lots of life's treasures and trinkets gathered up just waiting for the perfect place to be displayed. Well, I don't think anything can be more perfect than Configurations. Finally a shadow box that is completely customizable and configurable to your creative wants and needs. Each Configuration has interchangeable and removable inserts so you decide what you want to put where. Then create the perfect space for it along with its two part base and clear windowed top to keep your possessions safe and sound. Of course, with its plain covered base you also decide how to design it with inks, paints, or your favorite papers. Configurations are limited to your own creative visions...

Cardstock (includes 12x12 designs, 6x6
designs, 2x2 snippets, ATC & borders)
AV-TH92825
Retail \$14.99

Paper Stash- Let's face it, there is tons of paper out in the market, and I definitely own and use much of it already – so why more? Well, because sometimes if you want something done YOUR way, you simply have to do it yourself. The very eclectic collection of Paper Stashes gives me a variety of design styles to choose from. I'm not a fan of scouring paper racks to find papers that go together so I decided to keep them all in their own unique stacks...but with a twist! As a paper crafter, I use paper and lots of it, but I find myself wasting so much of it trying to get the parts of the designs I want. Well, not anymore. Each Paper Stash comes with double sided designs printed on heavyweight cardstock, including 12x12, coordinating 6x6 and 2x2 sizes of the same designs, and matching ATC and border strips. So whether you're making scrapbook layouts, cards, ATC, Fragments or simply collaging – I think you'll use up every last scrap...

Kraft Glassine- This hard to describe surface is quickly becoming a new favorite of mine. Combining the features of wax paper, kraft bags, and translucent glassine, kraft glassine has a unique look and feel all it's own that creates a very durable surface to emboss on, crumple up, or use to create a weathered overlay. Available in sheets or envelope pouches, kraft glassine might have you reaching for a new craft surface too...

Kraft Resist - Talk about something being irresistible! The combination of printed and dimensional imagery layered on to kraft paper makes this paper one of my new favorites. Use it as is for a great watermark look or even better, try coloring with Distress Ink. When you apply dye inks over this kraft paper, the clear dimensional design resists the inks giving you a look unlike any creative possibilities you've seen before. What could be better than printed, dimensional and colorfully inked kraft paper? Nope, I can't think of anything either...

Sprocket Gears ('sprā-ket gīrs) a toothed wheel to move a mechanism that performs a specific function in a complete machine.

Sprocket Gears - Tick-Tock... Time tells a story and each day unfolds a new chapter. Whatever your way of capturing the everyday, these sprocket gears can add a little mechanical element to your projects. Fasten them with brads, wire, or other hardware to add an industrial feel to your work.

Game Spinners ('gām spīn'ərz) a device consisting of a moveable arrow for an activity engaged in for diversion or amusement that is spun to indicate a next move.

Game Spinners - Spin it! You know you want to. After all, who doesn't like playing games. Oh, but these timeless spinners are more than just for games. Use them on your projects for direction, stating a specific time, or just for the fun of it. Attach them with the included long fasteners to have a working spinner ready to take you in a whole new creative direction.

Numerals ('num-rəls) a symbol or figure expressing or consisting of a number that can be fastened or attached.

Numerals - I think numbers have such character and meaning. Some of us find luck in numbers, or maybe they have significance for an age or a year in your life, perhaps they drum up memories of the house you grew up in. Whatever your reasons are, numbers can define a moment and set the stage for you to tell your story. (Or maybe you're just like me and think numbers just look cool on stuff)

Fractured Dolls - Love them or not, these vintage inspired dolls are great for collage and assemblage pieces. They do have a bit of history behind them - often referred to as "frozen charlottes" because of their unjointed position, they were manufactured in the early 19th century and inspired by a tragic tale of love. Young Charlotte set out with her lover Charles on a sleigh one bitter cold night to attend a New Years Eve ball. As the couple rode off into the frozen air of this star filled eve, Charlotte would not wrap herself in a blanket to stay warm for fear of crinkling her dress for the party. Upon arriving at the ball, Charles reached for Charlotte's still hand only to discover she had frozen to death. Deeply saddened by the loss of his love Charles wept in gloom, and soon after dies of a broken heart...

Use with long fasteners to create a faux rivet

Washers - It's no secret I love adding metal hardware to my projects. I'm always looking for elements that I can incorporate with my other idea-ology products. Washers are so simple, yet so effective I think – use them along with idea-ology Long Fasteners to create a faux-rivet. Simply insert a Long Fastener through the slot in the Washer and secure it to your project. Not only will this look more industrial, but it also provides extra durability. Pretty cool find don't you think???

Ornate Plates (awr-neyt) (pleyts) an elaborately adorned metal plate to be used as a design element, frame, or for labeling purposes.

Ornate Plates - Add a touch of nostalgic elegance with these ornate style bookplates. The detail, the finishes, the shapes of these functional elements will add just the right touch to your book covers, layouts, and even dimensional art projects. Insert your favorite photos or text behind these decorative hardware pieces and secure them with the included long fasteners. It's all in the details you know...

Mini Fasteners (min-ee fas-uh-ners) a slender wire nail with a tiny flat head resembling a screw that is used to secure objects or parts together.

Mini Fasteners - are little mini brads with debossed hardware markings to resemble tiny screws. Use them on Grungeboard®, as photo corners, or even over stamped images to accent. It's always good to have a "little" something to finish things off...

Instructions for the Mask Sheets:

1. Locate your mask sheets by finding the labels marked "mask - this side up".
**Note: the other clear sheets included are to store your masks after they have been created.*
2. Create and cut your design by hand, or use your personal die cut system. (Be sure to cut on the side marked "mask - this side up".)
3. If you have created an intricate design, you will have to prep your mask to remove the excess material following the instructions below.
4. Remove background area of mask by peeling off of backer sheet.
5. Remove mask from backer sheet and press down on a piece of scrap paper
**Note: some inside pieces will lift with the masks, others may be left on the backer sheet.*
6. Lift mask off of scrap paper to help remove inner pieces (smaller inside cuts should stick to scrap paper and dispose).
7. Remove leftover inside pieces from backer sheet and dispose.
8. Your mask is now ready to use.
9. Position on project as desired and press in place (Tacky repositionable back will assure placement).
10. Apply medium directly over top of mask, allow drying momentarily
**Note: do not heat mask material.*
11. Remove mask and return it to the backer for storage. **Tip: cleaning mask material is not necessary, mediums may be applied on top of each other, however mask can be cleaned with warm water, allow to dry upside down, adhesive will not wash off.*
12. Store mask on the provided backer.

Tim Holtz™ Distress crackle paint™

Decades of Distress™ in one simple step! This unique one-step paint cracks as it dries and gives a varied look, depending on the thickness of the paint application. Apply a medium coat for fine cracks, a heavier coat for larger cracks, or vary the application for a truly timeworn look on all types of craft projects. To accentuate the cracked surface even further, your finished piece can be rubbed with Distress Inks.

Distress Crackle Paint coordinates with the fabulous palette of Distress Inks™ and Distress Embossing Powders™. Combine them all for creative weathered effects on cards, scrapbook pages, chipboard, paper maché and canvas. The unique Metallic formulation re-creates the cracked look you see on many vintage ornaments painted with metallic finishes.

Available in 1.1 fl. oz. jars with a convenient built-in brush applicator lid. Displays are also available.

Tim Holtz® Distress Ink™

Tim Holtz® Distress Ink is a collection of 36 acid-free, non-toxic, fade resistant, water-based dye inks. They're perfect for the new vintage, stained and aged effects crafters are creating for their scrapbook pages, cards, rubber stamping and altered art projects. Produce a weathered look on papers, tint photos, fibers, ribbon, wood and more.

Distress Inks are also embossable and make a great base for Distress Powders! Distress pads are made with raised felt for easier use with direct-to-paper techniques. Reinkers are available in .5 oz. amber glass bottles with eye drop applicators.

Tim Holtz

What do you get when Tim Holtz adds vintage-style glitter to the popular Stickers Glitter Glue formulation? The result is Distress Stickers – a unique mixture of different size glitter particles with a nostalgic shimmer that complements the timeless color palette of Distress products.

With Distress Stickers you can achieve a mica-style look with extraordinary dimension on cards, scrapbook pages, chipboard, paper-mache, canvas, wood, Grungeboard, and more! Combine them with Distress Inks, Embossing Powders and Crackle Paints for a complete vintage effect on all types of projects.

Distress Stickers are sold in individual .5 fl oz. bottles and have a larger needlenose applicator than the original line of Stickers – allowing for better flow through of the different sized glitter particles. Available in 41 retro colors.

- Acid Free, Non-toxic
- Non-settling formula
- Premium quality glitter
- Large nozzle for easy application
- Tim Holtz signature color palette
- .5 fl oz with needlenose applicator

Tim Holtz
Distress™
 embossing powder
 A Revolution in Embossing Powders!

On wood

On cards

On translucent polymer clay

Specifically designed to match the Distress™ Ink colors, these embossing powders have a special property that creates a textured look of days gone by. After embossing, simply rub off the special release crystals. The effect is truly vintage, the texture is worn and weathered, the result is pure distress!

Distress Embossing Powders will appeal to rubber stampers, cardmakers, scrapbookers, altered & polymer clay artists. Available in clear 10 oz. jars in the 24 colors that coordinate with Distress Inks. Emboss using any Distress Ink or with Tim Holtz® clear Distress Embossing Ink.

Distress Stain

Available in 12 colors that coordinate with the nostalgic palette of Distress products, Distress Stains are fluid water-based dyes for papers and other porous surfaces. Use for quick and easy ink coverage for backgrounds and larger areas. Mist with water to lighten color and create mottled effects. Apply layers of stain to achieve more saturated color.

The brushed nylon dabber top has a built-in spring valve. This allows for controlling the release of Distress Stains from the bottle. By pressing the dabber top down onto surface, the valve opens and fluid releases. Lift dabber away from surface to stop fluid flow. Spread Distress Stains by swiping the dabber top lightly as a brush across the surface.

Combine Distress Stains with Distress Stickles, Distress Crackle Paint, Distress Inks and Distress Embossing Powders to create unique projects that reflect a crafter's style – whether vintage, retro or modern.
