

Meet Diana Antanies, the quilter of the month for June. Diana has been quilting for over 18 years now and began with small projects and then moved onto bigger ones when she was more comfortable because she is a self-taught quilter. Diana is inspired to keep quilting as she loves the texture of the fabric and quilting is also a stress reliever for her. She is currently working on her third twisted 9 patch baby quilt. Diana's favorite technique is strip piecing and power cutting. She would like to try a Lone Star quilt sometime in the future. Diana's interests are quilting, of course, visiting with friends & family, visiting quilt shops, and also crocheting. She is employed by Boise, Inc and resides in Littlefork, MN. The quilt in the picture is called Moonlight Sonata and was made for her daughter Sarah, who is a musician. Diana also has two stepsons, John and Jeremy Larson, and one granddaughter, Attlee. Thank you, Diana for being the quilter of the month for June.
