

Meet Shirley Simonson our July Quilter of the Month! Shirley started quilting four years ago when she took a class taught by Sue Anderson. She has five sisters that quilt and was inspired to join them in the fun. Shirley and her sisters have started their own quilt camp and get together twice a year and sew and have lots of fun! They all look forward to their time together. Shirley took a class on machine quilting in Minneapolis also four years ago and then started renting Val Sjoblom's machine for several quilts she quilted herself. She decided to take the plunge and put the money towards her own machine and purchased a Tin Lizzie the next year. Shirley loves being able to do her own quilts from start to finish. Shirley loves taking classes taught by Sue Anderson every winter and she makes several quilts a year. The quilt pictured above is called Spring Break.
