Good Morning, several of you have wanted to know what the **International Quilt Festival Baby Lock** specials will be. This year they are featuring six different machines, starting with their longarm on down to their embellisher. Included are the Enterprise 10 Needle Embroidery Machine, the Crown Jewel Quilting Machine, the new Ellisimo Gold, the Symphony, the Melody, and the Embellisher.

If you are interested in any of these machines, details can be seen at www.babylock.com. **Lone Star Quiltworks** will match all **International Quilt Festival Baby Lock** specials. Purchasing a machine from us will provide you with several advantages; local service, local knowledge, local lessons, plus keeping your tax dollars local. We would welcome the opportunity to provide you with a new machine should you be in the market for one!

Attached please find our November class reminder. Come and take a class with us. Great teachers, large classroom, and fun classes. Doesn't that sound good?

We are already bringing in new products that you may see at **International Quilt Festival** next week. To mention a few we have a bobbin puller which will help you lift up your bobbin from a top loading machine, a three thread spool tower for all of you embroidery gurus, (this item loads multiple spools of thread at the same time), a new screw driver set to help you change out your sewing machine feet and stitch plates, and variegated serger thread. Over the next few weeks you will begin to see all of our Market finds: new fabrics, laminates, patterns, and notions just to mention a few.

If you are riding the bus with us to **Festival** on Friday, November 4th watch for a reminder note next week. Should you be interested we still have a few spaces left. Don't miss this fun day of quilts, shopping, and good friends! For information go to our website at www.lonestarquiltworks.com. Bus trip info is listed on the Homepage.

Need to run! This one is a short one. Enjoy the rain when it gets here, it is going to smell sooooo good!

Terry
