

## **RAILROAD**

**CONTACT:** Don Pearson 801-479-8766

### **GOALS:**

1. Continued to work with the Railroad to maintain a good working relationship.
2. UPRR crossing at 2275 South - Pursue possible crossing arms with quiet zone construction.

### **UPDATES:**

**JANUARY 2012:** The changes in HWY 89 access by UDOT prompted a renewed request from the City to UPRR for assistance in obtaining crossing arms on the railroad crossing at 2275 East. Because of this request, officials from the UPRR, UDOT, and the City were invited to discuss the issues. Outcome from the exchange is encouraging, but is not a quick fix. As things progress, I will keep you informed.
