

RECYCLING AND RECYCLING ISSUES

CONTACT: Lee Wohlgemuth 801-475-7334

GOALS:

1. Promote the development of environmentally and economically sound practices regarding the collection, processing, and end use of solid waste, recyclable material, and compostable material.
2. Promote the development of environmentally and economically sound practices regarding the collection, processing, and end use of solid waste, recyclable material, and compostable material.
 - a. Explore new avenues of recycle collection.
 - b. Find ways to increase total collection of recyclables.
 - c. Increase revenue received for the recyclables that are hauled away.

UPDATES:

JANUARY 2012: The City is reviewing our recycling efforts, and costs, and we welcome more input before any decisions are made. I am asking you, the citizens of Uintah, for your comments on recycling and recycling issues. You can drop off your comments in the drop off box, email then to uintahcity@qwestoffice.net or lee_uintah@yahoo.com. COMMENTS WILL BE TAKEN UNTIL JANUARY 31, 2012.

FEBRUARY 2012: I appreciate the comments that I have received from many residents about the city's recycle and waste removal programs. If you have not written or called me yet with your views on recycling, please contact me, Lee Wohlgemuth, by phone or email. Meanwhile, I am happy to report that we will likely be able to reduce our costs for the recycling program in the near future, since you have been filling your recycle cans. I urge you to continue to recycle everything you can. At the same time, you can then put less in the waste cans, and we'll save some money there also. This will result in lower costs to our residents.
