Design Color Sequence Chart

The color sequence below is only a suggestion; please feel free to select colors of your choice.

Important Information-Please Read:

To ensure that this design will sew out correctly, it is extremely important that you read this information:

Different embroidery software will sometimes assign default colors to the embroidery designs and will also create different numbers of color stops or changes. Sometimes the colors that the software assigns do not match the color sequences that are provided for you. This is something that is beyond my control. It is best to disregard your computer and sewing machine screen and work with the color sequences that are provided for you below.

Please leave the color sequences in the order that was digitized. Another thing that is extremely important is to not sort the colors with your software.

I used Robison-Anton 40 wt-100% rayon and J Metallic thread for this design in the following colors and numbers:
