NEWSLETTER

Welcome...

As I reflect on the past 15 years of being with The Sewing Palace I am grateful to have had this opportunity. Starting out working with my mom brought so many new things into my life that were different from my marine biology background. These have been some extraordinary years. We moved the store three times, added some amazing employees, grew our families, shared and learned at many trainings and quilt markets and built lasting relationships with customers. I am very proud of my mom for building such a remarkable business and sharing her passion with me. Along with my amazing employees, we have grown to be a shop that I love and adore. It brings me such joy to share the art of creating and sewing and to see those handmade gifts shared with loved ones. I want to thank all of my incredible customers, outstanding and creative staff and my family for helping me take this journey. I wish you all a prosperous year of health, creating and sharing.

CLEAR APPLIQUE FOOT #23

When it comes to appliquéing with a narrow satin-stitch (up to 2 mm), Appliqué foot # 23 is the expert: its sophisticated design allows the fabric to feed easily over the stitches, even in the case of very dense rows of stitching. A cutout on the front of the presser foot will hold a narrow couching thread, making for trouble-free sewing of satin-stitching with cording.
