

## Rolling Stone Block Tutorial

Cut:

1 1/2" Squares - 4 of light print, 12 of background fabric

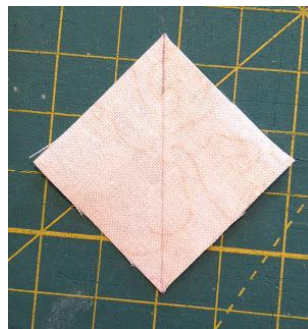

1 1/2" x 2 1/2" Rectangles - 4 of light print, 4 of dark print

2 1/2" Squares - 5 (I fussy cut one for the center but you don't have to) dark print

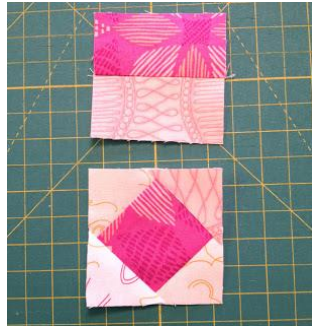

Instructions:

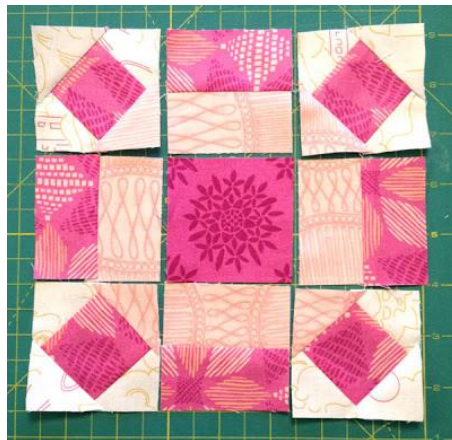

Mark a line on the back of all 1 1/2" squares diagonally. To make your flip and sew corners.

Sew three background corner squares (1 1/2") and one light print corner (1 1/2") to each of four dark print squares (2 1/2"). And sew the long side of the 4 light and four dark print rectangles together. You should have four sections each that look like this:

Layout your sections in a nine patch like this:

Sew in rows and then sew the three rows together and voila.

I made this a really simple tutorial so if you need any clarification let me know.
