

Kycha Hoppe

I'm originally from Northern California, but I have lived in Valdez Alaska 6 years now. I was inspired to begin quilting a few years back when I learned I was going to become a grandma. Having received many handcrafted gifts from my grandparents, I knew it was my calling to make my grandchild a quilt. I bought fabric, then a sewing machine and a beginner quilt book. I then put together my first quilt. I was hooked. I then began quilting with a local group of fabulous women and my passion for quilting continues to grow.
