Bernina 350 Limited Editions Arriving in January 2015

Bernina is proud to present two Limited Editions of their best selling model the Bernina 350.

The limited editions were designed by Ricky Tims and Tula Pink.

Bernina launched last year a campaign of their top designers.

Sewing enthusiasts nation wide voted Ricky and Tula's faceplates to be their favorites.

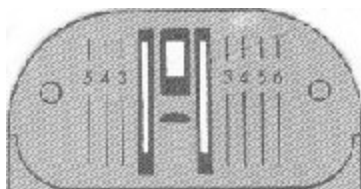

Arriving In January. Reserve yours today.

Why does my top thread keep breaking?

There are several reasons thread can continue to break.

1. You have an old or poor quality spool of thread.
2. The needle plate can be damaged around the needle hole.
The plate will need to be polished or replaced.

3. The machine hook could be damaged. If the hook is damaged it can hang on the tip and break.
4. The machine has threads hung in the tensions.

Making a Jumbo Hoop Tighter for Embroidery

Have you noticed that the new embroidery machines keep offering larger hoop sizes? This is wonderful; but you must stabilize these hoops properly. When using a Jumbo size hoop, stabilize the project like you would normally. Then take a piece of sticky stabilizer and add to the bottom of the hoop. Allow enough sticky to extend up the outside edge of the hoop. This will help keep the fabric taut. Happy embroidering.....
