

MAYOR MEMO:

KMB is a local participating affiliate of Keep America Beautiful. This organization unites citizens, business and government to find solutions that advance the issues of preventing litter, reducing waste, and beautifying communities. KMB is currently working with the residents of Frank Farms to refurbish the fences at the north boundary and to develop an entrance to define the subdivision in a prominent manner. In addition, they are working with Lot Holdings (Hall-Irwin) and the Metro District to establish guidelines for present and future plantings (landscape) in the towns' areas for current and future developments.

There are optimistic signs of building and business activities in Milliken. To date this year, there have been more single family dwelling permits issued than in the past three years combined with nearly all subdivisions having new building permits. Checking in with the local restaurants, there is an uptick in activities at these establishments. Hopefully, this trend will continue.

As the school year approaches, please be aware of the students and their commutes to and from school. A bit of additional caution is appreciated by all.

HOPE TO SEE ALL AT BEEF 'N BEAN DAY!

MILT TOKUNAGA, MAYOR

SAVE MONEY ON YOUR HOMEOWNER'S INSURANCE????

The **Milliken Fire Protection District** has received multiple calls from residents and insurance agents pertaining to the Insurance Service Office (ISO) rating. Some insurance carriers show our ISO rating as an 8 or 9 rather than the correct ISO rating of 5. You may be paying higher premiums if your homeowners insurance does not have the correct information. With the amount of fires recently, insurance companies may be adjusting their rates and there is no reason to pay more than you should. Contact the Fire Protection District, 970-587-4464, for questions.
