

## I-15 South Davis Improvements Project Email Update 07/30/15

*\*The construction activities below are applicable until the next email update.*

---

### **I-15**

- Expect ongoing nightly lane closures in both directions on I-15 for final paving and striping on I-15 in various locations in the project corridor nightly through mid-August.
- The Express (HOV) Lanes will be opened in various locations as restriping is complete through mid-August. Be prepared for left lane closures in areas where the lanes end.

### **400 North Bridge**

- The 400 North bridge is scheduled to be complete reopen to traffic August 14. The new bridge will have improved sidewalk, wider shoulders, and higher barrier.

### **400 North/500 West Intersection**

- Construction to add dedicated right turn lanes to the south side of the 400 North and 500 West intersection is scheduled to begin August 3. One corner will be constructed at a time to reduce impacts to traffic. Expect daytime shoulder closures and nighttime lane closures in the area through mid-September.

*Construction schedules and dates are subject to change*

### **Ongoing Activities**

### **I-15**

- One lane will be closed on I-15 during off-peak daytime hours (approximately 9am-3pm) Saturdays through Thursdays into mid-August while crews install final lane striping. This is a moving operation and will occur in one direction at a time.
- I-15 will be reduced to one lane nightly through mid-August while crews complete a number of activities in preparation for project completion

later this summer. Single lane closures will begin at 9:00 p.m. with I-15 reduced to one lane by midnight.

- Utah Highway Patrol will conduct rolling slowdowns intermittently at night to allow for overhead sign installation within the project corridor. Expect intermittent delays up to 15 minutes.
- Crews have begun shifting sections of I-15 into their permanent lane configurations in various locations. Be prepared for changing lane lines in various locations throughout the project.
- Travel lanes are narrowed to 11'. Trucks carrying loads wider than 11' should contact the UDOT Motor Carrier Division, 801-965-4892

### **Project Overview**

The I-15 South Davis Improvements project will:

- Add ExpressLanes in both directions from the north I-215 interchange to U.S. 89 in Farmington.
- Replace aging bridges at 2600 South, 1500 South, 500 South, and 400 North.
- Reconfigure the interchanges at 2600 South, 500 South and 400 North in Bountiful to improve east/west mobility
- Improve active transportation with better pedestrian facilities at 500 South, 400 North and Parrish Lane.

### **Plan Ahead To Reduce Delays And Impacts**

I-15 will remain open without restrictions during peak hours. However, travel delays up to 30 minutes are expected during peak travel times. Use Legacy Parkway or Frontrunner to avoid delay. FrontRunner provides all-day service with 30-min. frequency during peak hours.

### **Safety**

Stay alert and be prepared for changing lane configurations in the project area for your safety and the safety of those working here. Please obey the posted speed and be aware for changing roadway conditions throughout the project area.

---

### ***Other Projects in the Area***

- The City of North Salt Lake is realigning Overland Drive from 900 North to 1100 North this summer. For more information contact 801-335-8730
- UDOT maintenance work is ongoing on the ramps between I-15 and I-215. Expect the ramps to be restricted to one lane. Check UDOT Traffic for realtime alerts and impacts.
