

Moda Love Layer Cake quilt
Kathy Schmitz rendition

Leaf yardage - 5/8 yard of a coordinating light fabric. The sample shown uses 6065-13.
This is enough yardage for fusible applique. If you want to do turned applique you will need to increase this amount by a bit.

The additional fabric I used in making this quilt is the the Red Crackle from the same line of fabric - 5746-104 Rosy Red.

*hint - when using fusible web it's a good idea to cut out the middle of the leaf (from the fusible web) so that it won't be too stiff when it's all put together.

The leaves are added to the blocks AFTER the top is pieced.
