

### *Tips for Preparing your Quilt for the Quilter*

- Press your quilt top so that all seams are flat
- Trim any loose threads
- Make sure your backing is at least 8" larger than the quilt top and press the backing.
- Fold the top and backing separately and hang on a hanger to take to the quilter.
- If providing own batting make sure it is 8" larger than the quilt top.
- It can sometimes be helpful if you have an idea of how you would like your quilt to look.
- Before you leave the quilter, be sure you have an idea of how much it will cost and an approximate time until completion.
