

# Curve It Up

## Double Block of the Month

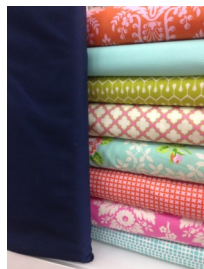

This new Block of the Month program developed by Jenny Pedigo from Sew Kind of Wonderful is a new take on a traditional sampler quilt. She has taken traditional blocks and “curved them up”. This program is great for new quilters wanting to expand their skills by experiencing many traditional blocks but it is also great for those that want to try something new by way of using “curves”. A specialty ruler is used to create gentle curves that are easy to sew.

Why “Double” Block of the month? Well because a year is a LONG time! New year’s resolutions?? Enough said. We want you to complete this quilt so we sped up the program and we are doing two blocks each month. We could have called it the Block of the Every Other Week Program but it didn’t have the same ring. Below is how we are running this particular program. Please read all the details below and if it sounds good pay your registration fee and come in to see your colorway choices or call us with your choice.

1. Select a session (Tuesday@6:00pm OR Wednesday@10:00am) for your Double Block of the Month.  
**Demo and pick up will take place the third Tuesday and third Wednesday of the month beginning on Sept 16th and 17th and proceed forward each month.**
2. Choose a color way:

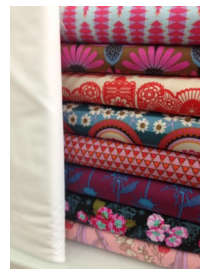

The  
Heather  
Bailey

The  
Michael  
Miller

The  
Anna  
Maria  
Horner

3. Pay Registration Fee of \$30.00 (non-refundable) which includes pattern book (which includes patterns for all 12 blocks) and first month’s two kits. If you have not already you will also need to purchase the Sew Kind of Wonderful Quick Curve Ruler (retail \$22.00)
4. Your kits will contain the fabric necessary for the month’s two blocks. Fabrics may differ depending on availability.
5. Bring your completed blocks to the next month’s session and get the following month’s two blocks free!
6. We will demo the blocks of the month. In addition, we will share all of the latest and greatest fabrics, pattern, books, and samples each month!
7. Successfully attend all 6 meetings and complete all blocks according to Program rules, and your total cost for the 12 blocks including pattern will be \$30!
