

Little Cayman

April 1 - 8, 2017

You are invited to join One World Dive & Travel as we escape to Little Cayman. Little Cayman is known in the diving world for its lush reefs, legendary walls and the Bloody Bay Marine Park. It is the least developed of the Cayman Islands, so relaxation is a guarantee here. You've read about the incredible diving on Bloody Bay Wall, so why not experience it for yourself. Come join us for a week of fun, relaxation, great food and memorable diving.

We will be spending 7 nights at the **Little Cayman Beach Resort**. Each room overlooks the pool with spacious accommodations and air conditioning. Everything is right at our fingertips: restaurant, beach, bar, and of course, diving! The resort offers spa services and a fitness center too. It is an ideal place for both snorkeling and diving as well as for continuing your diving education.
