

Meet Nancy Lee our Quilter of the Month for May! Nancy has been quilting for about 8 years now after she took a block of the month class from Dianne at Quilter's Corner. Nancy also has gotten great advice from many other local quilters on her quilting journey. Nancy's inspiration to keep quilting is the variety of the many different fabrics and projects to make for those special people in her life! She is currently working on a Marine Corp Emblem quilt for her Father in honor of his service in the Korean War. Nancy's favorite projects are small ones with small pieces! At the present time she is working on projects using the fabric selvages, which she says is interesting because of all the names of the fabrics. Nancy would like to try some smaller wool projects with hand applique for Christmas gifts. Nancy also enjoys photography as a hobby and taking some of those photos and turning them into notecards. Nancy has been employed for Koochiching Public Health for almost 26 years. Nancy has 2 adult sons who are both very crafty but she hasn't convinced them to start quilting yet! The name of the quilt pictured is the Hot Flashes Pattern which Nancy chose her six favorite blocks from the pattern and made 2 of each, one green and one red. Great job Nancy on this beautiful quilt and thank you for being our May Quilter of the Month!!!
