(719) 346-4725 Option 1

The specialty clinic at the Kit Carson County Health Service District would like to take this opportunity to feature Dr. Rachel McArthur for her years of service to our outreach program.

Dr. McArthur attended University of Northern Colorado and received her undergraduate bachelor's degree in both Speech Language Pathology and Audiology with a minor in music. She then continued her schooling in Greeley and received her Doctorate of Audiology Degree. Dr. McArthur has lived in Burlington since 2005 and has been practicing at the Specialty Clinic at KCCMH since 2007.

Dr. McArthur diagnoses and treats hearing loss, tinnitus, and hearing loss prevention for all rural Colorado and Kansas patients. Her goal is to provide patients the best possible hearing care, based upon individual needs. She provides a comprehensive array of services related to evaluation, rehabilitation and prevention of hearing impairment. These services include comprehensive hearing evaluations, specialized diagnostic testing, and industrial hearing screenings.

Since a hearing aid cannot be prescribed like eye glasses, proper hearing aid recommendation and fitting is highly dependent on the judgment and skill of the professional selecting the instrument. Dr. McArthur tests your hearing, selects and dispenses the hearing instrument that best meets your needs. In addition, she provides support, counseling and service of the hearing system.

Protecting your hearing can make a big difference. Dr. McArthur can help you protect your hearing from further deterioration through education about what affects your hearing, as well as the proper use and care of the hearing protection device.

Dr. McArthur is in our outreach at Burlington on a weekly basis from 9 am to 5 pm. If you would like to schedule an appointment with Dr. McArthur, please call 719-346-4725 option 1 and our staff will assist you, no referral needed.
