FALL 2012

Scrap Tamers Plus From Marti & Me Club (Two Clubs rolled into one!) September 2012-May 2013

This club will begin in September and meet on the 3rd Saturday of the month for 9 consecutive months. The focus of the club will be on learning new techniques, finishing your projects and having some fun. This year we will again be combining

the favorite features of our *Scrap Tamers Club*, including a scrappy mystery quilt, with the *From Marti and Me Club*. As part of the *From Marti and Me Club*, each month club members will receive a pattern for a project which features one of the Marti Michell tools or template sets. Marti Michell tools are designed to make your piecing more accurate. The patterns include different size options and excellent step by step instructions. You can make these projects from your stash or you can preorder a kit and/or the featured tool. Kit information will be available to preview and order each month for the next month's project. We will start in September with an overview of the special features of the Marti Michell tools and begin the projects in October. **The meeting dates will be September 15, October 20, November 17, December 15, January 19, February 16, March 16, April 20 and May 18.**

Sessions will include:

- A handout including clues for making a Glad Creations original mystery quilt measuring 56" x 64".
- A complete pattern by Marti Michell featuring one of her tools or template sets.
- Instructions and demonstrations for using the featured Marti Michell tool.
- Motivation from show and tell.
- And—a preview of what's new in the shop (all the goodies you'll want to know about).
- The sessions will generally last about 50-60 minutes. Please plan to arrive on time and stay for the whole session.

Mystery by Mail #50 available in October

This session our Mystery by Mail quilt will be the **same quilt** as the one offered for Mystery Weekend. The Mystery by Mail kits will be offered in 2 size options and will be available in early October. Each Mystery by Mail kit will include all the fabric for the quilt top plus the first clue. Four additional clues will be mailed, every 3 weeks, the final one including a photo of the quilt and the quilt layout. Give us a call or send an email to let us know that you'd like to receive swatches and information in the mail.

MACHINE TECHNIQUES

We have a wide selection of machine piecing classes to choose from. Some projects have several size options so be sure to come into the shop prior to your class for help with quilt sizes, yardage requirements, and to see the samples. We will be glad to help you select your fabrics.

Beginners class—no previous quilting experience required.

Intermediate class—“Beginning Rotary Star Sampler” or equivalent beginning machine piecing class is a prerequisite.*

Advanced class—A little bit more difficult. Requires previous machine piecing and rotary cutting experience.*

**Please note that in intermediate and advanced classes we assume you have some basic quilt assembly skills—they don't cover basics like adding borders, layering your quilt or quilting.*

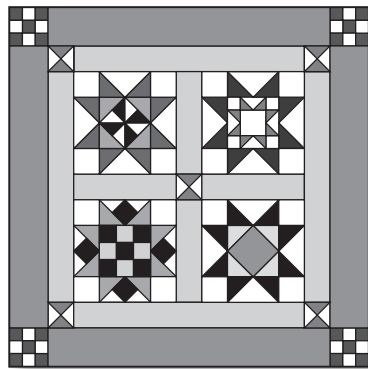

*Supplies & Equipment List for Machine Classes

- Rotary rule or equivalent (24" long)
- Rotary cutter
- Triangle or 2nd ruler for squaring up (optional)
- Sewing machine (cleaned, oiled and ready to use)
- Basic sewing supplies including a seam ripper
- Lunch for all day classes
- Fabric—prewashed and pressed.

Note: We have a “classroom” set of cutting mats so you don't need to carry yours to class with you.

BEGINNING ROTARY STAR SAMPLER • Annemarie Yohnk

This class will teach the fundamentals of rotary cutting and piecing by machine. Several techniques will be covered in the classes, including mastering the ¼" seam allowance, connector triangles, strip piecing, borders, basting and binding. Machine quilting will be demonstrated in the final class. Stop into the shop before the first session to see the sample and for help selecting the fabric for your quilt. Also, see *Supplies and Equipment list.

4 sessions • fee: \$42.00

Tuesday • Nov. 13, 20, 27, Dec. 11 • 6:00–8:30

INVISIBLE MACHINE APPLIQUÉ • Annemarie Yohnk

Learn to appliqué by machine with confidence! This technique based class will teach the invisible method of appliqué. The class project is an urn of flowers on a 16" block. This block can then be finished into a pillow or wallhanging. Appliqué can be quick, painless when you use the techniques taught in this class.

Once you learn how easy this method is you will want to take on other appliqué projects. You must bring your own machine and it's manual. It is best if your machine has an adjustable blind hem stitch or a variable overlock stitch. Stop by the shop to see the sample and pick up your supply list. Also, see *Supplies and Equipment list.

2 sessions • fee; \$25.00

Tuesdays • Oct. 9, 16 • 6:30–8:30

NORTH STAR QUILT • Susan Dyer

Learn how to use Deb Tucker's new Spotlight tool by making her North Star Quilt. The Spotlight tool is a trim-down tool for making this tricky unit. You'll be making units to finish at 1-1/2", 3" and 6" and stitching just four of them together to make star blocks for this 52" x 52" quilt. You will be doing the cutting in class

and should be able to complete several stars. Come in to see the sample and pick up your supply list. See the *Supplies and Equipment list for machine classes. You will also need the Spotlight tool and the North Star pattern, both by Deb Tucker.

1 session • fee; \$30.00

Tuesday • Oct. 2 • 10:00–4:00

 MACHINE QUILTING FOR BEGINNERS • Dee Legvold

Our machine quilting class has been re-formatted to better meet your needs. It's now a 3 session class. Week 1 meets from 6:30-8:00 without your sewing machine and covers planning, marking, pinning and basic information. Weeks 2 & 3 meet from 6:30-8:30 with your sewing machine and cover machine basics, working with the walking foot, free motion quilting, ergonomics and recommendations for your quilts. The class project will use the "Skillbuilder" fabric panel and book. In addition to the panel and book, you'll need a free motion foot (darning foot or "big foot") and a walking foot for your machine. Pre-requisite: "Beginning Rotary Star Sampler" or equivalent beginning piecing class. This class does not cover piecing or other construction techniques. Come in to pick up your supply list prior to the first session.
