

10 Year Anniversary Free Design

Color Chart

Important information-please read:

To ensure that the design will sew out correctly, it is extremely important that you read this information: different embroidery software will sometimes assign default colors to the embroidery designs and will also create different numbers of color stops or changes. Sometimes the colors that the software assigns do not match the color sequences that were provided for you. This is something that is beyond our control. It is best to disregard your computer and sewing machine screens and work with the color sequences that are provided for you here.

Please leave the color sequence in the order that was digitized for the design. Another thing that is extremely important is to not sort the colors with your software.

It is recommended that you sew out a sample of the design on the fabric that will be used for your project. This way you can be sure you like the colors of thread you have chosen and become familiar with the color sequence for the design.

Dimensions

Width: 6.54"

Height: 3.54"

Stitches: 11708

Color Information

	Color	Thread Palette	Number	Name	Stitches	Length
1		Robison-Anton Rayon 40	2250	Pistachio	5267	1139.17"
