**2009 Holiday Freebie by Michelle Griffith-Creator of "Simple and Elegant"™
Design Color Sequence Chart**

**The color sequences below are only suggestions; please feel free to select colors
of your choice.**

Important information-Please Read:

To ensure that this design will sew out correctly, it is extremely important that you read
this information:
Different embroidery software will sometimes assign default colors to the embroidery
designs and will also create different numbers of color stops or changes. Sometimes the
colors that the software assigns do not match the color sequences that are provided for
you. This is something that is beyond my control. It is best to disregard your computer
and sewing machine screens and work with the color sequences that are provided for
you below.

Please leave the color sequences in the order that was digitized. Another thing that is
extremely important is to not sort the colors with your software.

Color Information

	Color	Thread Palette	Number	Name	Stitches	Length
1		Icord Poly 40	5933	Grasshopper	3192	8.346m
2		Icord Poly 40	2011	Fire Engine	251	1.020m
