

Pixie Summer Home Quilt Along
The Basic House on the Block
By Julie Dueck of The Intrepid Thread

Cutting:

Background Fabric 2- 5" squares

Roof Fabric 1 – 5" by 9 ½" Rectangle

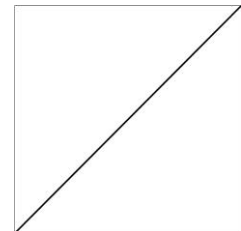

House Fabric 1 – 5" by 4 ½" Rectangle and 1 – 5" by 2 ½" rectangle

Door Fabric 1 – 5" by 3 ½" rectangle

**All seams are ¼ inch unless otherwise specified.

Assembly:

1. With a pencil mark the back of the two 5" squares of background fabric with a diagonal line.

2. Place one marked square on the left side of the roof fabric, right sides together, matching corners, and sew on the line as shown.

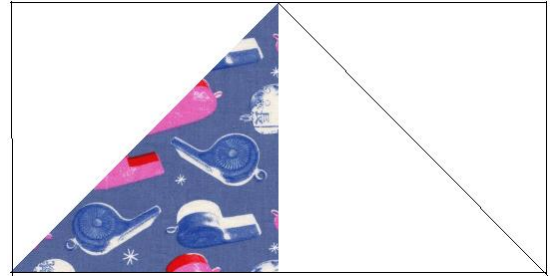

Trim the seam and press the corner out, I press toward the roof but if you prefer to press open that is fine. (Save

your corner triangles if you like to make some cute little pinwheel blocks for the back of the quilt.)

Repeat step two with the other side of the roof.

3. Sew the door piece to the right side of the 5" by 4 1/2" house piece, then sew the 5" by 2 1/2" rectangle of house fabric to the right side of the door.

4. Sew the roof to the top of the house. I know it was so simple 😊
