

## QUILT-NON SAMPLER BLOCKS 1 & 2

Block 1 Greek Square:

Cutting:

4 – 1 ½" by 2 ½" dark rectangles

4 – 1 ½" by 2 ½" light/bright rectangles

2 – 2 7/8" squares light fabric cut in half diagonally to make 4 triangles

2 – 2 7/8" squares dark fabric cut in half diagonally to make 4 triangles

1 – 2 ½" square

Make 4 units each that look like this:

By sewing the 1 ½" by 2 ½" light fabrics to the same sized dark fabrics along the 2 ½" side. And by sewing the light and dark triangles together along the long side.

Sew the resulting pieces and the center square together in three rows as shown below.

Sew the three rows together and you are done:

## Block 2 Improved Four Patch

Cutting:

2 – 2 ½" squares patterned or medium toned fabric

4 – 1 ½" squares light fabric

4 – 1 ½" squares dark fabric

2 – 4 ¼" squares medium fabric cut in half diagonally to make 4 triangles (these will be slightly oversized to make it easier to square up in the end)

Make two four patches using the light and dark 1 ½" squares like this:

Make a four patch out of the 2 ½" squares and the small 4 patch blocks you just made like this:

Fold the triangles in half on the long side and press a crease at the center mark.

Line the fold up with center seam of the large four patch and pin.

Also line up the point with the center seam.

Sew one triangle to the right and one to the left of the block. Press toward the center.

Trim the block so the edges are straight and aligned with the four patch.

Repeat with the two remaining sides and trim to 6 1/2" square.
