Kym lives on the Gold Coast in Queensland, Australia, and is an international speaker, teacher and co-inventor of sewing-related products. Together, with Ann Duncan, they own The Sewing Revolution Pty, LTD. Both Kym and Ann have presented and taught extensively in Australia, New Zealand, Thailand and United States. They combine patchwork, quilting, applique and machine embroidery together with amazing results. Kym and Ann are both passionate and enthusiastic about crafting and they love to share their secrets to sewing. Not only are you guaranteed to learn at their events, but you will also leave with a smile on your face. Both Kym and Ann's mission is to inspire and motivate sewists, quilters and patchworkers in accomplishing everything they have dreamed possible.

BSC is proud to offer this 2-Day Event with Kym Goldup-Graham!!

Reasons To Shop Independent!

Buying local has benefits beyond mere convenience. When you support local business owners, you get a better level of service, as well as helping make your community a better place to live.

Everyone knows that your dollar goes a long way when you buy a product or service from a small business. That money goes right back into the local economy. And that's important, because half of working Americans either own or work for a small business, and small businesses create two out of every three new jobs. A dollar spent at an independent retailer is spent 6 to 15 times before it leaves the community. From \$1 you create \$5 to \$14 in value within that community.

*Thank You For
Supporting & Growing
With Us!*

You personally know the people behind the business where you're buying products and services, you enjoy a connection you would not otherwise have.

Local businesses give a community its flavor. The combined presence of your town's many local businesses makes it different from every other city in the world. By supporting those businesses instead of chains or internet sales, you ensure that uniqueness is preserved as a part of your community.

When you shop local, the business owner is usually directly connected to every employee in the store, and leads to a personal approach to your experience. Chain stores, nor the internet can offer this type of personal customer service.

When you shop with your local independent retailers, you are doing your bit to keep your community open for business.

Sewing Machine 101

Don't know how to use the machine that's been sitting around your house or still in the box? Education is the number one reason BERNINA Sewing Centre has been in business for over 18 years! Our machine guide program is, by far, the best, and people come to us from everywhere to purchase their machines just to get the lessons we provide, absolutely free!

We will be more than happy to show you how to use your machine. Our experience spans over 23 years! We will show you how to properly thread the machine and how to select stitches and what they all mean. We'll explain why you have different presser feet and what they are used for. Needles and thread are very important for smooth sewing, and we'll explain that in this informative class! This is a Three Hour Class.

FIT IS EVERYTHING!

Susan Van Swearingen

Class Fee: \$30.00

Have you given up sewing clothes because you can't seem to get your patterns to fit? One of the reasons why, might be the pattern you are using. The "Big Four" (McCall's, Simplicity, Butterick, Vogue) uses a sloper (basic block pattern) that is outdated for the modern woman.

But we now have a wide variety of Independent Pattern Companies with an entirely new sloper, one that takes into account the Modern Woman. They have new fresh designs, fun to make and easy to wear.

For Susan's Fit Anything class you will be using an Independent Pattern Company pattern for best results. We have many of these in the shop, or we can special order for you!

Molly Waddell

You had a fabulous time expressing your creativity with Molly's techniques! Don't miss her newest class here at BERNINA Sewing Centre!

Molly has won numerous awards for her quilts on the local, regional and national level. Some of her work has been published in the *Quilting Quarterly Magazine*, *Quilt Art Calendars*, *Fons & Porter Love of Quilting Magazine* and *Quilters Newsletter Magazine*.

Molly will be sharing her award winning techniques with you!

Trapunto

Saturday, August 6 10-4

Class Fee: \$55.00 (includes lunch)

Trapunto has a long history. It appeared first in Italy around the early 16th century. It then appeared in America in the late 1700's. This technique was very popular up until the Civil War. Now with modern technology we can do this stuffed work in less time and work using a sewing machine. This wholecloth quilting technique produces a raised surface on the quilt.

In this class you will learn to add dimension and texture to your work. Come have fun while making a small wall hanging, which could be finished in class. In class you can choose from a variety of motifs. You will also begin to add quilted dimension using some free-motion quilting. Once you learn this technique you will be adding texture to many of your quilts. Your machine will need to have the feature where the feed dogs can be lowered or covered.

Skill Level: Confident beginner - Advanced

Take this class and get ready for Molly's Shadow Trapunto!!

Carolina Favorite—Curve Master!!

Sandy Marcum

September 9, 10-4

Class Fee: \$55.00

Carolina Favorite is an old American patchwork design, brought into the 20th century with acrylic templates for rotary cutting and the Curve Master Presser foot for fast, accurate, no-pin sewing of curves and straight seams. The required acrylic templates are available at BSC. Four blocks (about 15 1/2" finished size) can make a wallhanging piece, so a larger quilt is faster, too! Sandy Marcum has previously taught this popular class for several quilt shows in the US and Australia!

After this class you will be able to:

Rotary cut the required pieces using acrylic templates.

Cut and cut "in reverse" for left and right mirror images.

Identify fabrics with vertical symmetry and utilize it for stunning effects. Sew curves and straight seams with no pinning using the Curve Master Presser Foot.

Eliminate ironing of seams until the entire block is pieced, to avoid stretching and distorting seams.

September Classes

KOOL KALEIDOSCOPE

Beverly Dill

September 17, 10-4 &
September 18, 12-4

Class Fee: \$40.00

Though this project looks extremely difficult, It really is easy! This 2 part class will guide you through the entire process from designing, cutting, sewing and then letting the magic happen with your unique Kaleidoscope! We will be using a 12 inch template so the finished size will be 24 x 24. However.... You can add borders to yours or use it as an accent for a larger quilt. The options are endless.

NATURE INSPIRED PAINTED FABRIC TOTE BAG

Susan Van Swearingen

September 23, 10-5

BSC Committed To You!

One of the most important factors that should be considered when purchasing a machine is the level of expertise you are gaining by purchasing a machine from a dealer. We all too often have people come to us for guide lessons when they made the decision to purchase elsewhere. They chose a different dealer because they got a "great deal". We will gladly provide you with our guide lessons, the fee is \$250.00 per class.

If you purchase from us,
they are free for the life of the machine!

You can't get a great deal and great service. Those two things never go hand in hand. One always is sacrificed for the sake of the other. We offer everyday fair prices so we can give you great service as we always have over the past 18 years! Please choose wisely, we want you to get the most from your investment!

Each year 44,000 children across North America are treated for cancer while thousands more experience life-changing illnesses and injuries. A hospital stay is a frightening experience for adults, and even more so for young children. Beyond the obvious medical fears and difficulties, a sterile hospital room lacks the comfort and warmth of home.

Case for Smiles' goal is to provide a bright, cheery pillowcase to every child with cancer or a life changing illness or injury across North America and beyond.

Join us and make a pillowcase or two!

Project ♥ Linus

Susan Murphy, our local Project Linus Coordinator, will be here every month on the third Wednesday to have a 3 hour "sew in" for making Charity Quilts. Every month will be a different pattern. A great way to learn something new and help people in need of a little comforting. See the supply list for each project.

This is a great way to clean out your old fabric and see it go to something worthwhile.

- **PLEASE do not wear any perfume to class due to allergies of others.**
- Please do not bring children or pets to class.

Class Participants

- Students must be at least 16 years of age.

Classes are a time to learn and enjoy a peaceful time away from distractions at home. We look forward to seeing you!
