Learning to Color on Fabric

Basic Supplies Needed

[ ] Artwork (pattern)
[ ] Crayola® crayon 24 ct. box
[ ] Crayola©colored pencils 12 ct. box
[ ] Pigma® Micron pen SEPIA .01
[ ] Pigma® Micron pen BLACK .05 and .08
[ ] Grunge vanilla fabric
[ ] EZ Pellon® one side fusible
[ ] Bear Thread Appliqué pressing sheet
[ ] Covered wooden ironing surface 14 in x 18 in
[ ] Darcie craft iron
[ ] Royal wooden cotton swabs
[ ] 3 in. utility brush
[ ] Crayon tray
[ ] Tissue paper
[ ] Paper towel
[ ] Staples weft
[ ] Pencil

Optional other supplies
[ ] DecoColor® opaque paint pen (silver)
[ ] Anita's textile medium
[ ] Royal 1/2 Taklon paint brush

Preparing to Color

ARTWORK FABRIC
Artwork fabric is the 100% quality cotton fabric that is going to be colored on with crayons.

Artwork should always be with the grain of fabric.

Cut artwork fabric at least one inch larger than the area to be colored.

STABILIZE FABRIC
Fabric **MUST** be stabilized to write or color on. EZ Pellon® one sided fusible is used to stabilize. It has a release paper with light iron on fusible.

Cut stabilizer 1/2 inch smaller than artwork fabric.

Iron EZ Pellon® to back of artwork fabric.

Using a pencil, write "TOP" on the release paper on the top of artwork fabric.

TRACE ARTWORK
Using a Pigma® Micron pen SEPIA .01 and light box, trace artwork pattern on fabric. **DO NOT** use any other color Pigma® pen or brand.

PLACE ARTWORK ON APPLIQUE SHEET
Remove release paper from the back of artwork fabric and press sticky side to appliqué pressing sheet. Press with hot iron.

SAVE release paper.

How To Use Crayons
Disclaimer: "designs by tana" only uses the best quality crayon available. We prefer and strongly recommend Crayola® brand crayons. All instructions, patterns and sample experiments and research are created with Crayola® . Crayola® crayon is the only crayon that will be used during our workshops. If you choose to use another brand, the results may not be the same.

Begin with all crayons sharpened. The sample crayon is sharpened and ready for use.

Select crayons for project and place in crayon tray. **DO NOT** remove paper before sharpening with a General's® all purpose sharpener. The paper will keep the crayon from breaking.

Exercise: Create a 45 Degree Angle
Instructions: Using any crayon, create a 45 degree angle. To create the 45 degree angle, rest the crayon on the web of the hand with name of the crayon up right. Then scribble a "tornado" type shape without rotating the crayon. The crayon will then have a fine point on one side and a broad point on the other.

Hold the crayon like a pen or pencil.

Practice creating a 45 Degree Angle.
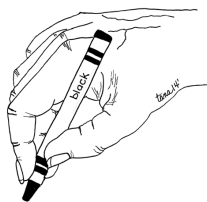

DO NOT ROTATE YOUR CRAYON.

Holding the crayon as shown scribble the "tornado" below:

To use the broad point of the crayon, hold the crayon between your thumb and fingers so it is being held like pencil. Use the broad point to shade.

COLOR CALL OUT ABBREVIATIONS

FP	Fine point
OL1	Outline on line
OL2	Outline inside next to first line
OL3	Outline on top of first line
S	Shade (with crayon)
B	Blend (with cotton swab)
DT	Dry trace
HB	Heat blend with cotton swab
HC	Use hard wooden cotton swab in small areas
HA	Heat area before using colored pencil

Basic Hot Blend Techniques
Let's assume you are going to to color to the apple. It has several parts; apple, stem and leaf. Chose one to two crayon colors or more for each area to be colored.
Example: Apple needs at least one dark and one light crayon. Leaf needs at least one medium and one light crayon and stem only needs
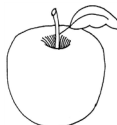

one crayon.

Working in one area at a time, light areas to darker areas, complete each step below:
  1. **Outline and Shade:** Using crayons with a 45 degree angle, outline and shade. Add second color to area and repeat.
  2. **Dry Trace and Blend:** Use a wooden cotton swab to dry trace; scrub lines clean and blend shaded area.
  3. **Heat and Blend:** Using craft iron, heat area and use wooden cotton swabs to blend heated wax into fabric.

Repeat the steps for additional areas to be colored.

  4. **Heat Seat:** Place tissue paper over artwork and heat set 10 second on all areas.
  5. **Micron Detail:** Define all lines and at signature to artwork. Using Pigma® micron pen .05 Black, outline all lines and add any detail.

FINISH
  1. Heat set using tissue paper (matte side).
  2. Micron blend (if desired).
  3. Heat Set using tissue paper (matte side).
  4. Signature: Sign your block with a Micron pen.
  5. Carefully remove from ironing surface.
WARNING! DO NOT let sticky touch sticky. It will ruin the artwork project.
  6. Hand press release paper onto sticky area. Using hot iron, press in place.
  7. Apply fabric solution. (optional)

FINISHING
Dry Mounting for Framing
Leave release paper on the back of the completed artwork fabric block. Using a lint roller, remove any excess debris. Square the block to the desired size. Take to professional framer for dry mounting and framing.

Hand Embroidery or Quilt Block
Square the complete artwork block to the size desired. Add a piece of fusible weft to the fusible side. Weft is made by Staples®. It is a pre-shrunk 100% cotton woven fabric with a light iron on fusible to stabilize the fabric for hand embroidery work or quilting. It will not way down the block.

FABRIC SOLUTION
Use 1/2 Taklon brush to apply solution lightly with the grain of the fabric. Stay inside the outer outlines by 1/4 inch. Solution will absorb in the fabric and ease to lines.

Finishing Solution Recipe
1/2 tsp. of Anita's Fabric Textile Medium
1/2 tsp. of cold tap water
1 - 1 oz. paint pot
1 - Set of White Taklon paint brushes
Mix in a small 1 oz. paint pod.

Allow to dry flat 24 hours. Press with hot iron.

Adult Coloring

Let's Color!

Krayon Kountry Kiddos Kollection is colored with Crayola® crayons 24 count box and Crayola® colored pencils 12 count box.

The FREE Download provides **ONLY** the basic color out combinations for this project . Our Let's Color! Kountry Kiddos Kollection "Step by Step" Workbook is available on our website at www.designsbytana.com.

The following items are the same through out the project:

Area: Sky
Crayon: Cerulean

Area: Clouds
Crayon: Gray

Area: Tree tops, bushes, plants, grass, grass line, and grass sprigs

The foliage is divided in sections. Chose two sections and color the dark green shades. Then, color the last section light green shades. Alternate the colors in the different blocks. Repeat for grass area and plants.

For Dark Green Shade
Crayon: Green
Crayon: Yellow Green
Pencil: Green

For Light Green Shade
Crayon: Yellow Green
Crayon: Green
Pencil: Yellow Green

Area: Tree trunks
Crayon: Brown
Crayon: Black
Add a few strokes for tree bark.
Pencil: Brown
Pencil: White
Pencil: Black
Outline tree bark you created.

Area: Kiddo hands and feet
Crayon: Apricot
Crayon: Brown

Area: Denim Overalls
Crayon: Indigo

Area: Straw Hats
Crayon: Brown
Crayon: Apricot

Other Crayon and Colored Pencil Combinations that look great together are:

Red   Always apply crayon then Red pencil for rich true red.

Red Orange	Orange	Yellow Orange
Scarlet	Orange	
Blue Violet	Violet	Blue
Dandelion	Yellow	
Indigo	Cerulean	
Blue	Cerulean	
Yellow	Orange	Red
Violet	Violet Red	
Red Violet	Violet Red	Violet
Orange	Dandelion	

Remember you can practice adding dark and light colors together on scrap fabric to create different color values.

Always add colored pencil on top of crayon.

DO NOT use colored pencil by itself.

If you would like to attend a class on how to blend colors and more information please email Tana Mueller:
