The Lindon City Council held a regularly scheduled meeting on **Tuesday, September 6, 2016, beginning at 7:00 p.m.** in the Lindon City Center, City Council Chambers, 100 North State Street, Lindon, Utah.

**REGULAR SESSION** – 7:00 P.M.

Conducting: Jeff Acerson, Mayor
Pledge of Allegiance: Dennis Kendall
Invocation: Jake Hoyt, Councilmember

**PRESENT**
Jeff Acerson, Mayor
Carolyn Lundberg, Councilmember
Matt Bean, Councilmember
Van Broderick, Councilmember
Jacob Hoyt, Councilmember
Dustin Sweeten, Councilmember
Adam Cowie, City Administrator
Cody Cullimore, Chief of Police
Hugh Van Wagenen, Planning Director
Kathryn Moosman, City Recorder

**ABSENT**

1. **Call to Order/Roll Call** – The meeting was called to order at 7:00 p.m.

2. **Presentations/Announcements** –
   a) **Mayor/Council Comments** – There were no announcements at this time.

3. **Approval of Minutes** – The minutes of the regular meeting of the City Council meeting of August 16, 2016 were reviewed.

   COUNCILMEMBER HOYT MOVED TO APPROVE THE MINUTES OF THE REGULAR CITY COUNCIL MEETING OF AUGUST 16, 2016 AS AMENDED.

   COUNCILMEMBER LUNDBERG SECONDED THE MOTION. THE VOTE WAS RECORDED AS FOWLLOWS:

   COUNCILMEMBER BEAN AYE
   COUNCILMEMBER LUNDBERG AYE
   COUNCILMEMBER BRODERICK AYE
   COUNCILMEMBER HOYT AYE
   COUNCILMEMBER SWEETEN AYE

   THE MOTION CARRIED UNANIMOUSLY.

4. **Consent Agenda** – No items.

5. **Open Session for Public Comment** – Mayor Acerson called for any public comment not listed as an agenda item. There were no public comments.
 CURRENT BUSINESS

6. Review & Action – Lakeview North Holdings Condo Plat, 1396 West 200 South. Joel Pilling seeks preliminary approval of a twelve (12) unit condominium plat to be known as Lakeview North Warehouse Condominiums Plat A located at approximately 1396 West 200 South in the Light Industrial (LI) zone. The Planning Commission recommends approval.

Hugh Van Wagenen, Planning Director, led this agenda item by explaining this is a request by Joel Pilling (who is in attendance) and seeking preliminary approval of a twelve (12) unit condominium plat (6 units in each building) to be known as Lakeview North Warehouse Condominiums Plat A located at approximately 1396 West 200 South in the Light Industrial (LI) zone. He noted the Planning Commission recommended approval with a unanimous vote.

Mr. Van Wagenen explained this property received site plan approval in May of this year and the two buildings are now under construction. He noted Mr. Pilling intended to record a condominium plat for the two buildings but is just following up on his intended plan in moving forward. The surveyor wanted to get the exact corners of the foundation that was laid for the plat rather than doing it beforehand and wanted to wait so the exact property descriptions could be done from the actual building footprints.

Mr. Van Wagenen went on to say the minimum lot size in the LI zone is one (1) acre and condominium units do not need to meet this requirement, but this site does meet the requirement as it is just over five (5) acres. He noted there is not quite 350 feet of street frontage on 200 South. He pointed out that street improvements were completed as part of the site plan approval and no additional improvements are needed at this time.

Mr. Van Wagenen commented that staff has determined that the proposed subdivision complies, or will be able to comply before final approval, with all of the remaining land use standards in LCC 17.32. He noted the City Engineer is addressing the engineering standards and all engineering issues will be resolved before final approval is granted. Mr. Van Wagenen stated that staff has no concerns as this is a pretty straightforward and appears to meet all requirements. Mr. Van Wagenen then referenced an aerial photo of the proposed subdivision and the preliminary plan followed by some general discussion.

Councilmember Hoyt asked about the price point on the units. Mr. Pilling stated the shell is around $600,000 and tenants will do the improvements. He noted these units are more business oriented than personal use oriented and will be used as more of a commercial use.

Mayor Acerson called for any further comments or discussion from the Council. Hearing none he called for a motion.

COUNCILMEMBER BRODERICK MOVED TO APPROVE THE APPLICANT’S REQUEST FOR APPROVAL OF A TWELVE (12) UNIT CONDOMINIUM PLAT TO BE KNOWN AS LAKEVIEW NORTH WAREHOUSE CONDOMINIUMS WITH NO CONDITIONS. COUNCILMEMBER SWEETEN SECONDED THE MOTION. THE VOTE WAS RECORDED AS FOLLOWS:

COUNCILMEMBER BEAN AYE
COUNCILMEMBER LUNDBERG AYE
7. **Discussion Item — Chamber of Commerce Participation.** The City Council will discuss Chamber of Commerce activities, demand for chamber services by Lindon businesses, and chamber benefits in general. They will hear from the Pleasant Grove Chamber of Commerce regarding a proposal for Lindon City to partner with the PG Chamber and a request to financially support the PG Chamber on an annual basis. The Utah Valley Chamber of Commerce has also been invited to answer questions about services provided through their Chamber. Feedback will be provided but no motions made.

Mr. Cowie stated Hugh Van Wagenen, Planning & Economic Development Director, is in attendance to present a summary of Lindon’s past involvement with Chambers of Commerce and the local business inquiry/interest in Chambers. He noted after a meeting with the Pleasant Grove Chamber several weeks ago Lindon staff asked for information from the PG Chamber regarding their requested funding by the City and their joint Chamber membership proposal and they are in attendance tonight to present a summary of their services. He noted the Utah Valley Chamber has also provided a summary of their services and a proposal to join the UV Chamber as a ‘Gold Member’ the same as Provo and Orem cities. He noted that no motion is needed for this item as it is for discussion only.

Mr. Van Wagenen led the discussion by explaining the Pleasant Grove Chamber of Commerce has approached Lindon City to contemplate a Pleasant Grove/Lindon combined Chamber of Commerce. He noted the goal is to combine financial resources in order to hire a full-time employee to act as the Chamber President rather than continuing with a part-time employee. For many years Pleasant Grove City has offered a City employee to the Chamber on a part time basis and also allowed the Chamber to use City office space. The most recent employee/president has left to pursue a full-time position and with this transition, Pleasant Grove has decided to not provide the Chamber with a part-time employee, but rather directly contribute financially with about $18,000 to $20,000 a year.

Mr. Van Wagenen went on to say the Chamber feels that now is the time to recruit a full-time employee who can build on the momentum the Chamber has seen over recent years and hiring a new part-time president will not enable Chamber memberships and services to reach a new level. He noted in approaching Lindon, the Chamber is requesting $10,000 that would be used with the Pleasant Grove funds as salary compensation for a full-time president. Additionally, $1,500 to $2,000 one-time monies would be needed to rebrand the Chamber into the Pleasant Grove/Lindon hybrid. As membership levels between Pleasant Grove and Lindon businesses become similar in the future, Lindon could possibly have its own chamber. Another alternative under equal membership levels is for Pleasant Grove City to decrease its annual contribution while Lindon City would increase it contribution as more Lindon businesses would be serviced. Return on investment could be measured by new businesses joining the Chamber.
retention rates, and feedback from businesses regarding the benefits of chamber membership. He noted the American Fork Chamber of Commerce is also seeking a new president and there is a thought that American Fork, Pleasant Grove, and Lindon should combine to hire one individual to act as president for both chambers and have one part-time clerical employee.

Mr. Van Wagenen also mentioned that Lindon City Staff has also reached out to the Utah Valley Chamber of Commerce to see what benefit local businesses would receive with a $10,000 City contribution. He then turned the time over to Mr. Larson, acting president of the Pleasant Grove Chamber, to present his summary to the Council.

Mr. Larson addressed the Council at this time and gave his presentation. Mr. Larson began by mentioning the following talking points regarding Chambers:

1. **Relationships:** This isn’t about networking – this is about gaining friends, associates, and even advocates.

2. **Visibility:** While many companies are looking to make be seen in the cyber world, and are doing a very good job of it, there is nothing that sells your business better than being in front of people face to face.

3. **Promotion:** Chambers offer a wide-range of advertising options and sponsorship packages. Typically, for a similar cost of a few minor ads in traditional advertising mediums, a business can sponsor entire programs or events through a chamber. Beyond the paid advertising options, chambers also have ways to provide additional business promotion for free through monthly and annual awards, social media, regular newsletters, and even printed materials.

4. **Community Connection:** Chambers are non-profit organizations desired to lift the economy. They work very closely with governments to provide a representative business voice when needed. Participating in a chamber provides business with an avenue to express their legislative policy questions directly to the legislatures.

5. **Ongoing Training & Education:** Chambers provide an inexpensive way to bridge the gap between no training and topic-expert training.

6. **Programs and Events:** Membership in a chamber of commerce provides access to all of their programs and events, which are many. Chamber events include business training luncheons, networking specific events, awards banquets, golf tournaments, city celebration events, and many others specific to each chamber.

Mr. Larson then questioned when is the right time to formalize a relationship and in doing so to consider these specific questions.

1. **Who** – Membership based organization within a geography that want to do business together and form relationships.

2. **What** – It is a 506c6 non-profit partnership, including education and networking which is supported directly by Pleasant Grove and Lindon City with dollars, with their own board of directors and their own office space.

3. **What** – Provides a unified business voice. They host events and promote local businesses through grand openings, online marketing, recognition and award programs and other programs.

4. **When** – Digital promotion around the clock, face to face event schedule, monthly business training lunches, quarterly mayors business council, joint chamber
lunches, annual award banquet, annual golf tournament, annual strawberry
days/Lindon days parade, annual chamber Christmas part, other community
events.

5. Where – Office meeting space in both cities, events held in both cities, members
also from American Fork, Highland, Orem, Provo, Salt Lake City.

6. Why – You do business with those you know, like and trust. Lindon City support
is better for the Chamber of Commerce and better for Lindon business, and better
for Lindon City.

Mr. Larson then turned the time over to business owners and chamber members
Emily Olsen, owner of Saratoga Jewelry Co., and Dennis Knuckles, with Big-D
Construction, to give their perspectives.

Ms. Olsen spoke on the value of being a Lindon business in the Chamber of
Commerce. She noted she was approached to join the Pleasant Grove Chamber of
Commerce five years ago and has really appreciated the opportunity. She is now on the
Board and it means a great deal as it is her link to the community and there are a lot of
Lindon businesses that feel disconnected that aren’t a member of an organization like
this; she feels this is her only connection. She also believes the Pleasant Grove Chamber
is setting the standards and businesses are falling into place.

Mr. Knuckles stated he came to Big-D Construction five years ago. He noted they
feel being part of the business community is important so they joined the Pleasant Grove Chamber where he has served in several capacities. He pointed out that there is a lot of
value in being part of the Chamber as you have a business voice. Mr. Knuckles stated
that he would love to see Lindon businesses be part of that and would love to see a
Pleasant Grove/Lindon Chamber to represent Lindon City as well; he feels Lindon
businesses would benefit greatly. He added that there is great value in having the Lindon
name on the Chamber and the investment would come back in the form of happy
business owners with networking etc. He pointed out that a rising tide raises all boats
and this would attract/help/recruit more businesses and tax revenue would go up and
there is a lot of advantages to that.

Mayor Acerson questioned if it would be more beneficial for Lindon to move
ahead with their own Chamber of Commerce and how broad the base should be and
where the balance should be.

Ms. Olsen stated she feels it would be advantageous to join the PG Chamber now
and to see how it goes as Pleasant Grove has put a lot of footwork into this and it would
be a really good leg to stand on. She added this will be a new opportunity with a new
president and to utilize what they have already put in place.

Mayor Acerson pointed out that he sees the value of promoting networking, but in
the past some of those associations have gone south. He sees the benefit of commonality
but at some point in time there are some differences and controversy that can happen (i.e.
700 North Corridor Agreement with Pleasant Grove). He feels that Chambers cater to the
bigger business; it is the nature of the business. Mr. Knuckles commented that the
Chamber is big enough to provide value to the large company and small enough to cater
to even the home business; it is nimble that way.

Councilmember Sweeten gave some history of the previous Lindon/Pleasant
Grove Chamber and stated the reasons he likes this current proposal because it will be
independent and the cities will be in a partnership. The cities will be funding a good portion but the businesses will fund the major portion. He feels this is an investment that will bring revenue to the city and if involved the city will see that the gains will outweigh the investment. He expressed that this is a good fit at this time and a win-win situation for all. He also feels the Chamber offers a connection between businesses and the city.

Mayor Acerson commented that businesses have their own interests and as independent as you try to be the structure may change and you may have very little voice.

Councilmember Lundberg expressed that she feels the time is right to embrace this and to feel the connection with businesses and to start participation from Lindon businesses and recruitment.

There was then some general discussion regarding this issue including having a full time business professional that can take the Chamber to the next level.

Mayor Acerson commented the City tries to be business friendly, but once you start putting money out there you start competing; it is not just a membership and if the growth hasn’t occurred he would ultimately like to see it be self-sufficient. He went on to say the city wants to establish a good business environment, but they would also want the new Director to be actively engaged in going to the businesses and selling the concept and presenting the benefits; if it benefits the businesses it is money well spent.

Councilmember Lundberg suggested having a councilmember act as a liaison who will report to the council so they are aware of what is going on in the business community.

Councilmember Sweeten commented he feels there are benefits from a Chamber and there will be benefits for Lindon in growth and revenue as the membership grows.

Councilmember Broderick asked if there is there any type of data that shows sales tax revenue will go up with membership in a Chamber.

Councilmember Hoyt related a business model. He noted he is unsure if there is a study directly correlating to a Chamber but he believes there is a correlation with the results of the relationships established. He noted he is passionate about the Chamber because of the results he has seen in his personal employment. He would love to see what this could do for Lindon businesses. He feels this is a service the city can provide to help local businesses.

Councilmember Broderick asked how the Chamber would differ from membership with other alliances i.e. (Utah Valley Homebuilders Association, Corporate Alliance etc.). Ms. Olsen commented that she feels Lindon businesses are eager to be a part of the community in a much larger capacity. Being a member of the Chamber would automatically open the gates and allow these opportunities to come. The way the new President is put into place will facilitate that things are done differently.

Mr. Larson added a Chamber is a direct connection to the community where corporate alliance and other networking groups are privately run organizations with the sole purpose of making money.

Councilmember Lundberg commented this is something that may establish more of a community presence and be another channel for communication. Councilmember Bean mentioned that Lindon has 9% of the businesses and Pleasant Grove has 90% so how did they determine the contribution amount noting it should probably be more proportional. He also asked what the salary base of the new employee will be. Mr. Larson stated it will be $40,000 for the full-time non benefitted position (salary plus
Councilmember Bean stated he would like to see some projected financials (5 year historicals) to do a reasonableness test.

Mr. Van Wagenen pointed out city staff has received minimal comments regarding local business interest in any Chamber of Commerce. He also mentioned that Lindon has 772 registered businesses of which 8 Lindon businesses are members of the Pleasant Grove Chamber of Commerce (according to the Chamber website). Lindon City is currently a member of the Utah Valley Chamber of Commerce with 32 Lindon businesses being members of the Utah Valley Chamber of Commerce. He then turned the time over to the Utah Valley Chamber of Commerce for comment.

Tom Randall and Rona Wall with the Utah Valley Chamber of Commerce addressed the Council at this time. Ms. Wall began by stating the Utah Valley Chamber fills the role when it becomes a county issue and they provide the opportunity to share information. She noted the Provo/Orem members contribute based on the membership structure. Ms. Wall mentioned that she visits with both mayors and development staff. They are also self-funded with no funding from the County beyond their membership fees and have many resources in place to support the business community.

She would encourage Lindon to join the Utah Valley Chamber as a member and enjoy the benefits of promoting the City. Provo and Orem are members as are the Utah County Commissioners. Orem and Provo are both currently Gold members of the Chamber which membership is $5000 a year. She mentioned that in addition to co-sponsoring events and working closely with these cities, their memberships include the following resources:

- Sponsorship credit $1500
- Advanced selection of sponsorship opportunities
- Includes all Business Builder benefits
- Corporate recognition in Chamber publications
- Access to exclusive invitational events
- Opportunity to host after hours event
- Business spotlight opportunities
- Premium Chamber web presence

Ms. Wall pointed out at a very high level, the Utah Valley Chamber would be the city chamber for Lindon, Pleasant Grove and potentially American Fork (in addition to their continuation of service to Provo and Orem). Their services would provide active business development solicitation of the businesses in these three communities to join the Utah Valley Chamber. She noted that currently they do not recruit these areas but if they contact them they will provide them with the following membership options:

- The funds from each city provides the compensation for this new position.
- Advocacy and support for members businesses as needed for economic development in the respective cities.
- Event sponsorship credit for each city as determined by them. Amount would be negotiated later.
- Their website would be updated to reflect each individual city by page with links back to the city home pages.
- Active marketing of city events using Chamber marketing channels;
email, Facebook, Twitter, Instagram etc.

- Production support for city events can be negotiated.
- Networking event locations rotated through each city up to two times per year.
- Membership includes a season pass to one networking event per month (10 months).

Ms. Wall then mentioned some details about the Utah Valley Chamber to keep in mind:
- 32 Lindon businesses are members of UVCC
- Event attendance is up 10% year over year
- Membership retention rate is 85%. Industry standard is 86%.
- The weekly email newsletter has an average open rate of 28% and the click through rate average is 15%.

Ms. Wall concluded by stating they would love to work more closely with Lindon City to promote business prosperity among the companies that call Lindon Home.

Mr. Randall stated businesses want a voice together in a format that makes sense and the Utah Valley Chamber makes a big difference in the community. Councilmember Hoyt commented he feels the Utah Valley Chamber is a great organization but he is not sure it fits with what we are trying to do. Ms. Wall stated they are open if the Council wants to explore it further.

Councilmember Sweeten commented he wants a Chamber because the needs are not currently being filled. He feels the Council should move ahead with the proposal presented and within a short time the membership would grow (PG Chamber) and he would vote for approval.

Councilmember Lundberg commented she would like to see more discussion on how it is structured and have more representation with active benchmarks and projections to look at for accountability and also how our community presence would work; she is not certain $10,000 is the amount to start with.

Councilmember Broderick commented that he is excited about the prospect of having some Chamber involvement and he would like to see us move forward with the appropriate dollar amount.

Councilmember Hoyt commented there have been past conversations, including debate of amounts, including proportional contributions by the businesses. He feels this is a good organization that has made some significant investment to make this Chamber what it is. He added there is value in joining the membership as they are established (as opposed to starting our own Chamber). He is really excited about this opportunity and he would love to see this come to the next meeting as an action item. He noted he would also like to see some financials.

Mayor Acerson commented if you are going to go out and campaign and invite businesses to join they will be asking tough questions and if you don’t have thoughtful answers you will have less success.

Councilmember Bean commented that he is positive to the idea overall and agrees there is a value in their brand in the investment they have already made, but he would like to see a concrete rationale as to how to approach this.

Mr. Larson stated they will put together a concrete proposal with some additional information to bring back before the Council.
Mayor Acerson called for any further discussion or comments. Hearing none he moved on to the next agenda item.

8. **Discussion Item — Secondary Water Use in Lindon.** The City Council will discuss secondary water (pressurized irrigation) usage in Lindon City and review options for protecting and conserving secondary water resources and associated infrastructure within the City. City Engineering and Public Works Water Division staff will be available to present data, answer questions, and make recommendations for future infrastructure needs and usage restrictions.

Mr. Cowie, gave some background of this agenda item explaining the City Council will discuss secondary water (pressurized irrigation) usage in Lindon City and review options for protecting and conserving secondary water resources and associated infrastructure within the City. He noted the City Engineering and Public Works Water Division staff are in attendance tonight to present data, answer questions, and make recommendations for future infrastructure needs and usage restrictions. He then turned the time over to Mark Christensen, City Engineer, to give his presentation and review it in detail.

Mr. Christensen began by introducing Michael Clark and Chiffon Jolley. He then gave a brief summary stating they will be presenting data and information on secondary water use in Lindon. He explained that the stress upon the 20 year old current secondary system is starting to show and actions are needed to sustain and maintain the system into the future. He noted the secondary water is not metered and data shows usage far exceeds the recommended watering levels.

He stated it is recommended that starting next watering season (2017) the City implement the following watering restrictions:

*Outdoor watering is limited to three days per week according to street address as follows:
  • Odd-numbered addresses water on Monday, Wednesday, and Friday
  • Even-numbered addresses water on Tuesday, Thursday, and Saturday
  • No outdoor watering on Sunday
  • No outdoor watering between the hours of 10am to 6pm (no day-time watering)*

Mr. Christensen then gave an overview how the Lindon pressurized irrigation water system works and where the water comes from including the North Union Canal, the Zone 3 Reservoir and the Alpine Aqueduct. He then gave an analysis of Water Use and System Issues System Issues and Concerns including excessive water use noting the system is struggling to satisfy high water use. He noted this system was designed for lawn and garden use and pressure irrigation rates have remained the same since 1993. The original infrastructure is over 20 years old and the North Union Canal (city does not own) lining is aging, leaking and beginning to fail (canal lining collapse in August of 2016). He noted the canal and aqueduct delivery costs per gallon are increasing and there are areas with low pressure, especially during high use times. He then turned the time over to Mr. Clark and Ms. Jolley for comment.

Mr. Clark explained that Lindon is using 1,100,000,000 gallons of pressure irrigation water used per season which is 400,000,000 gallons in excess of USU’s recommended water usage. He also showed photos depicting the excess water usage. Mr. Clark noted the State is looking to take a more active role in water use and regulation and
he believes that staying ahead of this is wise. The current adjudication process is preserving our rights. He went on to say that one of the main issues is that Lindon residents are using 60% more than the necessary amount of irrigation water.

Mr. Christensen mentioned two approaches for improvement would be to increase capacity and reliability and reduce water use. He stated that combining elements from both approaches may be the most effective way to address the issues surrounding the pressurized irrigation system. There was then some lengthy general discussion regarding this issue including approaches and costs to repair the canal.

Ms. Jolley then presented the following information with possible solutions and estimates followed by some general discussion with the Council.

Ms. Jolley discussed some infrastructure improvements as follows:
- Increase North Union Canal Capacity and Reliability
- Evaluate feasibility of piping entire canal
- Pipe high risk areas immediately
- Increase Zone 2 pump station capacity
- Operational enhancements

Ms. Jolley referenced some possible water use regulations as follows:
- Water Restrictions
  - Odd house numbers water Monday, Wednesday, and Friday.
  - Even house numbers water Tuesday, Thursday, and Saturday (similar to Cedar Hills, Pleasant Grove, Salem, and American Fork)
  - Restrictions are enforced with warnings and fines

Ms. Jolley mentioned some water metering options as follows:
- Individual User Metering (do not know the costs yet)
- Install and require secondary water meters on every property (consider a sampling)
- Properties charged based on water usage (currently done in Saratoga Springs, Santaquin, American Fork, Springville, and Spanish Fork)
- System Meter Upgrades
- Replace unreliable meters

Ms. Jolley mentioned they have also looked into a Public Awareness Campaign will help residents understand that current levels of use are putting stress on the system and the reliability of that system. They would suggest giving simple, easy and free ways to reduce individual use. Implementing an app showing recommended watering amounts (Department of Water Quality), tips for changing habits (e.g. sweep instead of spraying off driveway), water wise planting, water conservation educational materials for students and teacher, rebates on EPA “Water Sense” smart controllers, and a “Slow the Flow” free water check. Suggestions for public outreach were then discussed. Ms. Jolley re-iterated a strong public relations campaign will be needed to help educate the public about this change and the reasons behind any restrictions and the responsibilities attached.

Mr. Christensen concluded by giving their system improvement recommendations including the feasibility of installing water meters on all properties (by choice or by mandate), replacing unreliable meters on the booster pumps and reservoirs to track system usage and identify losses in the system, implementing an irrigation schedule.
(odd/even schedule), initiating a water use awareness campaign to educate the public and adopt a Community focused message like –“We are all in this together –our water, our responsibility,” and collaborate together to identify the tools that are going to work best for Lindon.

Mr. Cowie asked the Council if there is enough interest to have staff start preparing a campaign for next year on watering restrictions. Following some additional discussion the Council was in agreement to allow staff to begin preparing a Public Awareness Campaign to educate residents on the importance of responsible water usage as we all need to be wise stewards. There was also discussion on the costs of increasing capacity and reliability. Mr. Cowie stated those costs could be multi-millions of dollars to increase capacity. Mr. Cowie stated the Council does not have to make a decision tonight, but if there is going to be a change they will need time to prepare. He noted he will gather more data on the pumps and lift stations and contact some other cities for secondary water comparisons and document capacity/reliability numbers and bring it back before the Council for further discussion.

Mayor Acerson called for any further discussion or comments. Hearing none he moved on to the next agenda item.

9. Review & Action — New Public Works Positions. City Administrator, Adam Cowie, will present a request for budget approval of three additional full-time employees within the Public Works Department. Growth in city infrastructure, demand for utility services and need to increase regular maintenance of existing infrastructure necessitates additional employees in the Water, Sewer, and Public Works Inspection divisions within the Public Works Department. Estimated fiscal impact of the three positions is $216,370.49 with the majority of costs covered by utility enterprise funds (water, sewer, storm water).

Mr. Cowie explained over the last several years the City has anticipated that some new positions at Public Works will be needed as new infrastructure increases and older infrastructure requires more maintenance and/or replacement. He noted that part of the utility rate study and subsequent multi-year increase to utility rates was in anticipation of needing additional public works employees for improved operation and maintenance of existing and future infrastructure. These anticipated positions were also highlighted in the Budget Kick-off meeting held in February of 2016. Mr. Cowie stated the fiscal impact has been evaluated with healthy and/or improving enterprise fund balances showing it is financially stable to move forward with the new positions.

Mr. Cowie further explained that he had hoped for a new Public Works Director to be involved in the hiring and selection of additional Public Works employees, but waiting for this position to be filled is not prudent. He went on to say with the current and projected growth in the City, additional help is needed as soon as possible as the current employees are stretched very thin between various activities (often outside of their regular duties). He added that routine maintenance of infrastructure is often postponed to concentrate on immediate problems and needs. Mr. Cowie pointed out that in addition to these three new positions, an additional 2-3 positions are anticipated over the next few years including potential employees in storm water, streets, and a possible in-house engineer.
Mr. Cowie stated they are requesting approval on these new positions tonight so they can advertise and begin to fill the positions and to also include the updated expenditures in the October 2016 budget amendment. He noted this will help ramp up for the planned development on the Ivory Development and the 700 North Corridor and additional growth in the city. Following discussion the Council was in agreement to approve this request.

Mayor Acerson called for any further discussion or comments. Hearing none he called for a motion.

COUNCILMEMBER LUNDBERG MOVED TO APPROVE THE CREATION OF THE THREE NEW PUBLIC WORKS POSITIONS AS PRESENTED AND DIRECT STAFF TO AMEND THE 2016-17 BUDGET ACCORDINGLY IN THE OCTOBER BUDGET. COUNCILMEMBER SWEETEN SECONDED THE MOTION. THE VOTE WAS RECORDED AS FOLLOWS:

COUNCILMEMBER BEAN AYE
COUNCILMEMBER BRODERICK AYE
COUNCILMEMBER LUNDBERG AYE
COUNCILMEMBER HOYT AYE
COUNCILMEMBER SWEETEN AYE

THE MOTION CARRIED UNANIMOUSLY.

10. Review & Action — Utah County HUD/CDGB Agreement; Resolution #2016-16-R. The City Council will review and consider Resolution #2016-16-R approving an updated Interlocal Agreement between Lindon City and Utah County to participate in the U.S. Department of Housing and Urban Development (HUD) Community Development Block Grant (CDGB) program.

Mr. Cowie referenced the resolution and agreement to approve an updated Interlocal Agreement between Lindon City and Utah County to participate in the U.S. Department of Housing and Urban Development Block Grant (CDGB) program. Mr. Cowie then gave a summary noting in 2010 Utah County cities entered into an Interlocal Cooperation Agreement with Utah County to participate in the U.S Department of Housing and Urban Development’s (HUD) Community Development Block (CDBG) Grant Program.

Mr. Cowie explained the Interlocal Cooperation Agreement was for Federal Fiscal Years 2011, 2012, and 2013 and successive 3 year periods thereafter. He noted this Interlocal Agreement automatically renews every three years unless a unit of government opts out. However, due to federal regulations changes have been made to the Civil Rights and fair housing language and the County sent out updated interlocal agreement and signature pages for each city.

Mr. Cowie further explained that in the spring a new interlocal agreement was signed by the mayor, however HUD rejected the documents as they had not gone before each Council with the associated resolutions, therefore, HUD has required that new resolutions be passed and the new Interlocal Agreement be signed. Mr. Cowie pointed out that Lindon City has benefited greatly from CDBG grant funding in the past and staff
recommends approval of this agreement so Lindon can continue to participate in these programs.

Mayor Acerson called for any further discussion or comments. Hearing none he called for a motion.

COUNCILMEMBER BRODERICK MOVED TO APPROVE RESOLUTION #2016-16-R TO CONTINUE PARTICIPATION IN THE HUD AND CDBG PROGRAMS. COUNCILMEMBER BEAN SECONDED THE MOTION. THE VOTE WAS RECORDED AS FOLLOWS:

COUNCILMEMBER BEAN AYE
COUNCILMEMBER BRODERICK AYE
COUNCILMEMBER LUNDBERG AYE
COUNCILMEMBER HOYT AYE
COUNCILMEMBER SWEETEN AYE

THE MOTION CARRIED UNANIMOUSLY.

11. Review & Action — Utah County Major Crimes Task Force; Resolution #2016-17-R. The City Council will review and consider Resolution #2016-17-R approving an updated Interlocal Agreement for Lindon to continue participating in the Utah County Major Crimes Task Force. Lindon has participated in this organization since 2008. The new interlocal agreement will be effective until 2026 with participation fees paid based on population. Lindon City’s fees of approximately $3,600 per year have been budgeted annually.

Mr. Cowie explained that Lindon City has benefited from participation in the Major Crimes Task Force in the past. Staff recommends approval of the interlocal agreement to enable Lindon to further participate in the Task Force. He noted the annual assessments have been budgeted for FY2017.

Chief Cullimore then gave a brief history of the Major Crimes Task Force noting the city has participated since the Police Departments inception in 2008. He added if approved this agreement will be effective until 2026. He noted the fees are approximately $3,600 per year and he feels this is money well spent. He noted it was originally called the Utah County Narcotic Enforcement that began around 1986. It is a cooperative effort among law enforcement agencies in the County where they come out to help handle many incidents and to show support.

Mayor Acerson called for any further discussion or comments. Hearing none he called for a motion.

COUNCILMEMBER HOYT MOVED TO APPROVE RESOLUTION #2016-17-R APPROVING AN UPDATED INTERLOCAL AGREEMENT FOR LINDON TO CONTINUE PARTICIPATING IN THE UTAH COUNTY MAJOR CRIMES TASK FORCE. COUNCILMEMBER SWEETEN SECONDED THE MOTION. THE VOTE WAS RECORDED AS FOLLOWS:

COUNCILMEMBER BEAN AYE
COUNCILMEMBER BRODERICK AYE
COUNCILMEMBER LUNDBERG AYE
COUNCILMEMBER HOYT AYE

The City Council will review and consider Ordinance #2016-17-O approving necessary revisions to Lindon City Code (LCC) Chapters 2.16 “JUSTICE OF THE PEACE,” LCC 2.36 “POLICE DEPARTMENT”, and removing (repealing) LCC 2.40 “CITY PRISON”. These changes are cleaning up old code sections or removing sections that are no longer relevant to Lindon City.

Mr. Cowie explained additional review is needed prior to finalizing the code updates and revisions to Lindon City Code (LCC) Chapters 2.16 “Justice of the Peace” and LCC 2.36 “Police Department”, and removing (repealing) LCC 2.40 “City Prison”. He noted these changes will clean up or remove old code sections that are no longer relevant to Lindon City. Mr. Cowie therefore directed the Council to continue this agenda item to the next meeting to allow time for additional review.

Mayor Acerson called for any further discussion or comments. Hearing none he called for a motion to continue.

COUNCILMEMBER BRODERICK MOVED TO CONTINUE THIS AGENDA ITEM TO A FUTURE CITY COUNCIL MEETING FOR FURTHER REVIEW OF ORDINANCE #2016-17-O. COUNCILMEMBER LUNDBERG SECONDED THE MOTION. THE VOTE WAS RECORDED AS FOLLOWS:

COUNCILMEMBER BEAN AYE
COUNCILMEMBER BRODERICK AYE
COUNCILMEMBER LUNDBERG AYE
COUNCILMEMBER HOYT AYE
COUNCILMEMBER SWEETEN AYE

THE MOTION CARRIED UNANIMOUSLY.

COUNCIL REPORTS:

Chief Cullimore – Chief Cullimore had nothing to report.

Councilmember Hoyt – Councilmember Hoyt had nothing to report.

Councilmember Broderick – Councilmember Broderick reported on the Provo Bench Canal meeting. He noted that he appreciates the attentiveness to the homeowners in his neighborhood on the recent sewer issue. He also reported that the pickle ball court surfacing and lights are in progress and it is looking great.

Councilmember Bean – Councilmember Bean had nothing to report.

Councilmember Lundberg – Councilmember Lundberg had nothing to report.
Councilmember Sweeten – Councilmember Sweeten mentioned the costs of the flow rider. He feels if managed properly it can break even and he feels it is more self-sufficient than what he thought. He also expressed that he appreciates all the work and effort on the part of the employees on a daily basis.

Mayor Acerson – Mayor Acerson reported that the recent COG and MAG meetings were cancelled. He also mentioned the upcoming Utah League of Cities and Towns conference.

Administrator’s Report:
