Paper piecing is a technique that insures perfect blocks every time, no matter how large or small your finished block is; it will become a valuable addition to your skills toolbox. **This class emphasizes the original basic paper-piecing method.**

A fun way to learn paper piecing is to make a small sampler quilt...which is exactly what we plan to do with this basic class. You will become "hooked" on the technique and eager to see how each unique, individual block turns out. I also plan to show you my foolproof method of joining the block segments together. I have been paper piecing for years and just love this technique!
